Focus on the most cost effective solutions
Belden launches comprehensive
Master Catalog – EMEA version

Belden, the leading international designer and manufacturer of high-speed electronic cable and connectivity solutions, has launched its very first single volume Master Catalog for the European, Middle East and African markets.

The new Master Catalog, which is available both in hard copy and on-line versions, is an the easy to read and comprehensive reference manual showing the company's thousands of cabling and signal transmission products as well as related products.

Classified by end-user industry and with a wealth of technical and professional background information, the Belden EMEA Master Catalog contains more than 500 pages of comprehensive tables and nearly 20 chapters, providing an industry by industry overview of products and solutions on offer. Additional chapters provide technical product background and descriptions of the latest developments in signal transmission.

According to Paul Turner, Vice-President Sales & Marketing EMEA: “We spend much of our global resources ensuring that the Belden brand is synonymous with high quality, high performance and reliability, all the time and in any market: broadcast, commercial networking, security, industrial, residential and many other applications. We believe that Belden offers the very widest range of signal transmission products.

We are proud to have been able to capture the full product range in our brand new catalog. And of course, besides providing all the data, we also have the full back-up support necessary to help customers meet their requirements.”

President of Belden Europe, Larrie Rose adds to this: “We have earned our worldwide reputation as an expert solutions provider. We make it our job to supply high performance, quality products and an innovative approach. We bring to market the very best in signal transmission technology – copper, optical fibre and wireless. And where needed, we offer complete systems.”

To obtain your copy of the Belden EMEA Master Catalog, please contact you local representative or visit www.belden-emea.com.

About Belden

Belden is a leader in the design, manufacture, and marketing of signal transmission products for data networking and a wide range of specialty electronics markets including entertainment, industrial, security and aerospace applications. Belden has manufacturing facilities in North America and Europe as well as distribution centers in the U.S., Canada, Singapore, Australia and the Netherlands. A majority of Belden's manufacturing, engineering and support functions are registered to the International Organization for Standardization.
